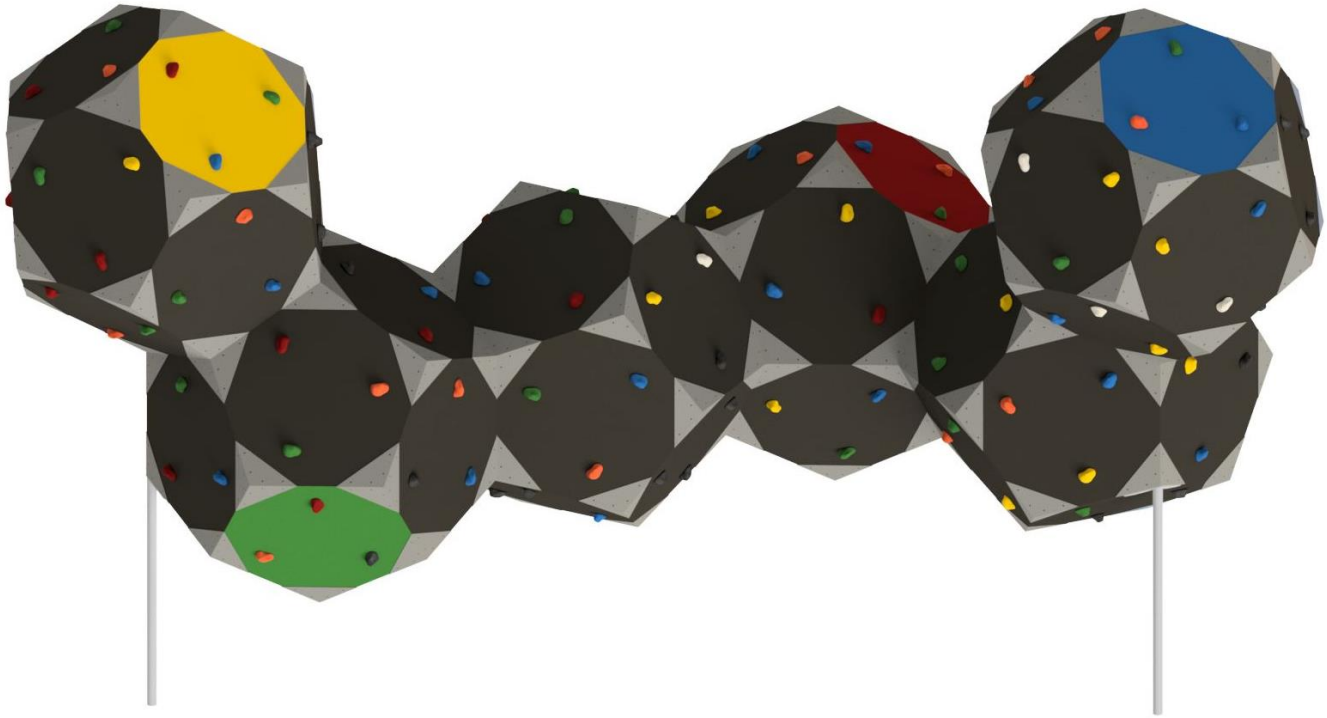
MEGA Z2-01

Catalogue No.: Z2-01

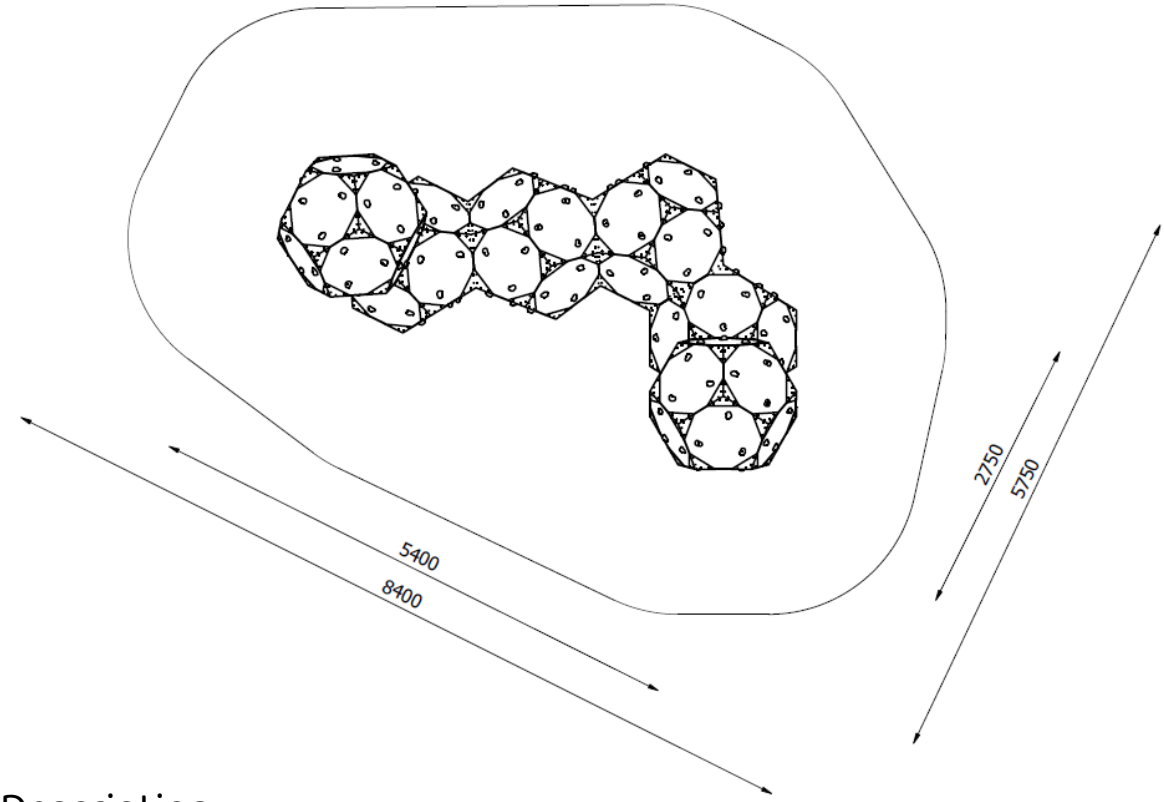
8-15

32



Dimensions	5,50 m x 2,80 m x 2,70 m
Safety zone	8,70 m x 6,20 m
Height of free fall	2,70 m
Number of users	32
Age	8-15 years
Material	- antislip, waterproof plywood - galvanised carbon carbon or stainless steel - epoxy resin

Safety zone



Description

The balls made of durable and humidity resistant plywood, painted with two coats of an acrylic paint. The corners of blocks closed with elements made of steel thickness 3mm. On the surfaces of the wall there are special grips mounted made of epoxy resin, featuring various shapes and dimensions. The element connecting the front surfaces of a block into a single construction is a metal pyramid shaped attachment with angles between the neighbouring surfaces. The cap construction foresees assembly holes with a deepening for relevant connectors. The corner cover is made from a single element shaped by bending along two axis and welding of one seam and removal and then rounding of sharp edges. All the metal elements made of stainless steel or of carbon steel with corrosion protection by galvanizing and double powder coating. The fastening elements are galvanized.

Way of seating

The device construction mounted directly in the ground by sinking in concrete.

The manufacturer indicates that the real appearance of the above presented device may differ from visualization. All the construction or colouring changes are related to continuous process of device quality and aesthetics improvement.
